

# ANNACIS ISLAND WASTEWATER TREATMENT PLANT NEW OUTFALL PIPE

We're working in your neighbourhood to improve sewer system service

## FRASER RIVER CONSTRUCTION SCHEDULE UPDATE

March 30, 2021

As you may know, construction of the Annacis Island Wastewater Treatment Plant Outfall is underway. This project is one of several upgrades that will allow the plant to meet the needs of our growing population, strengthen its ability to operate in the event of an earthquake, and adapt to climate change. These upgrades will ensure the continued protection of public health and the environment.

### Schedule Update & Hours of Work

In order to complete this work safely and maintain the construction schedule, diesel impact pile driving within the Fraser River is expected to continue until summer 2021 during the following allowable work hours:

- Monday to Friday between 7 a.m. and 7 p.m.
- Saturdays between 9 a.m. and 5 p.m.

Please note, river conditions and flow rates may impact the work schedule. All work will comply with City of Delta and Vancouver Fraser Port Authority bylaws and permit variances.

Construction activities that will not have a significant impact on surrounding communities will resume 24 hours a day, seven days a week, as needed, on April 15, 2021, until February 2022. Anticipated activities will include:

- Concrete pours
- Welding
- Cleaning out piles
- Vibratory sheet extraction
- Equipment maintenance

### Noise Impacts & Our Commitment to You

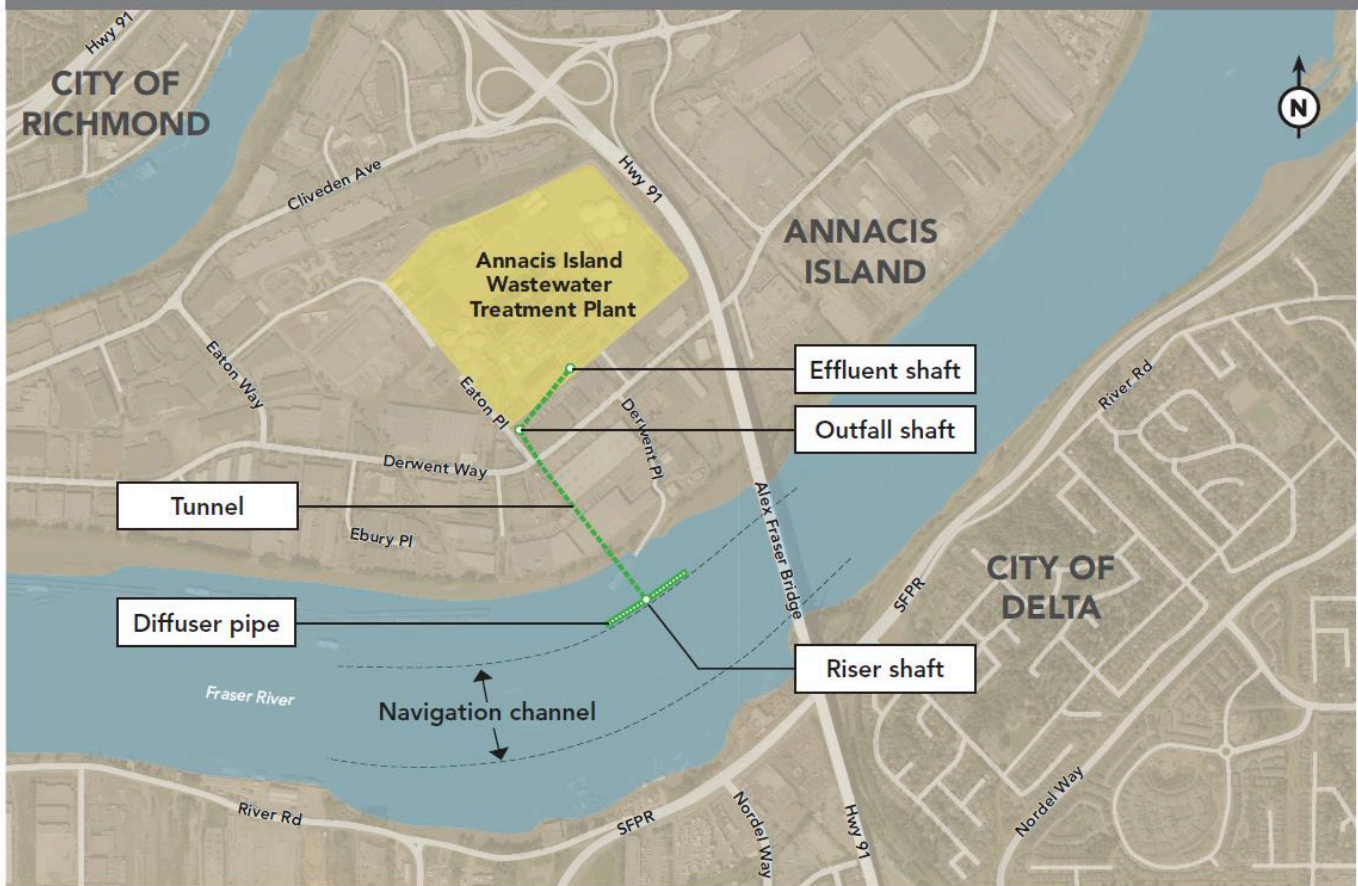

Metro Vancouver is committed to minimizing the impacts of this work on the surrounding community. To meet that commitment, crews will be using a quieter vibratory hammer to complete the majority of the in-river pile driving work. Heavier impact hammer equipment will only be used as needed during the allowable daytime hours. If you have any questions or concerns about this or about the project in general, please do not hesitate to contact us using the information on the reverse.

### COVID-19 and Delivery of Essential Services

Metro Vancouver continues to closely monitor developments regarding COVID-19 and our paramount commitment is to maintain essential services to the region while protecting the health and safety of our employees, contractors, residents and businesses. Metro Vancouver's construction projects are key components in ensuring the ongoing delivery of essential services as defined by the Province of BC. Metro Vancouver follows the guidance of the Provincial Health Officer and is taking all necessary measures to ensure our worksites remain safe and healthy.

Thank you for your patience and understanding while we complete this essential infrastructure project in your community.

## LOCATION OF THE ANNACIS WASTEWATER TREATMENT PLANT NEW OUTFALL

**Community Liaison:** 604-432-6200 (Monday to Friday from 8 a.m. to 4:30 p.m.)

**After-Hours Emergency:** 604-451-6610
